SUNNYBANK NURSERY

SUNNYBANK, S.C. LINE

Wholly set up and printed in Australia by The Carter-Watson Co. Ltd., Albert Street, Brisbane, for Edgar Sandall, Sunnybank Nursery, Sunnybank, S.C.L.

Hints on Planting.

TO meet the numerous inquiries regarding the above, and the oft-times failure of novices in the branch complaining of not succeeding in getting good, healthy trees to grow, we allow ourselves to give a few hints to guide where necessary, though it is difficult to put down general rules, as soil, climate, and wet or dry seasons may considerably alter the conditions.

After having your ground staked out and the hole opened, one man should hold the tree and work the soil amongst the roots, while another fills in the good soil. Take care not to plant too high or too deep; the depth the tree stood in the nursery is easily recognised by the lighter colour in the wood. Tramp the soil firmly before filling up.

If the weather is dry, give the tree a thorough watering before filling the hole up, and also in this case a slight mulching with bush scrapings or stabling will prove of great benefit. If the Spring months are very dry, and should the trees show signs of wilting, give them at least a bucket of water each and fill in on disappearance of water, with dry earth.

I sent out during the year 1925, thousands of citrus trees. The verdict returned is: "The trees we get from the Sunnysbank Nursery are strictly first-class."

I HAVE much pleasure in presenting my Catalogue, and I take this opportunity to tender my best thanks to my patrons and friends for their kind support, and to solicit a continuance of their goodwill, and to express my grateful sense of appreciation to those who have kindly recommended and introduced me to their friends, materially helping to increase my connections.

My constant aim is to give the fullest value with each and every order, and I trust to be further favoured this season with your requirements.

The Sunnybank Nursery
is noted for its superior quality of
Rooted Citrus Trees.

I have been honoured with a visit by the leading FRUIT EXPERTS of the Commonwealth, and their opinion is—

“There is no better Nursery in Australia for the production of first quality Rooted Citrus which brings repeat orders.”

BUSINESS TERMS.

CONDITIONS OF SALE.—I believe that all fruit trees, rose plants, etc., sold by me are of the description and kind specified by me at the time of sale and are true to the label; but owing to the practical impossibility in all cases of being certain of this, beyond refunding the original money paid for wrongly named goods or supplying others in their place, I, further, give no warranty, expressed or implied, as to their living, growth, description, quality or productiveness, and make all sales subject to these conditions. If the purchaser does not accept the goods sold to him on these terms they are to be returned to me at once, carriage paid.

A Few Reminders.

ORDER EARLY.—Orders are often sent in too late to enable me to execute them, or to notify parties in time to get supplied elsewhere. If there are any trees required that are not mentioned in this Catalogue, I will endeavour to procure them at lowest ruling prices.

All goods are delivered carriage free at Sunnybank Station, or steamer. All packages well and securely packed for the journey they have to undergo, but after despatching such goods and signed for in good order, my responsibility ceases, goods travelling at purchaser's risk.

All correspondence receives my personal attention, and any information concerning the planting, pruning, and selection of varieties, will be cheerfully and promptly supplied on receipt of stamp to cover postage.

My "motto" is to produce good, healthy, well-rooted trees and plants.

Packing receives my personal attention, and is charged for at cost price.

If any mistakes occur they are unintentional, and will be at once rectified if informed on arrival.

I shall esteem it a favour if you will show this Catalogue to your friends, or mention my name and address.

Remittances may be made by draft cheque, money order, or postal notes payable in Brisbane. Bank notes should be sent in registered letter. Add exchange on country cheques.

No complaint can be entertained unless made immediately on receipt of trees.

All orders taken subject to weather conditions.

ORANGE TREES.

Price 2/6 each, 25/- per dozen, £7/10/- per hundred.

Sweet Orange Stocks.

Bysield's Seedless.—Smooth skin, juicy, good grower.

Dunning's Naval—Large, strong grower, good keeper, thin skinned, rich in aroma and good quality.

Joppa—A fine variety, bearing fruit of good size and very fine quality, the skin is very thin and smooth, and the flesh rich and juicy, and practically seedless, regular and early bearer.

Lue Gim Gong—The latest of all oranges, good bearer, juicy and good flavour.

Mediterranean Sweet—Medium size, very early and prolific.

Parramatta—Deep yellow, fruit large and round, hardy and very prolific.

Queen—Very large, thin skinned and deeply coloured, very juicy, splendid flavour, and good cropper.

Ruby Blood—Fruit ripens early, of medium size and very juicy, flesh deep red.

Sabina—A fine solid orange, showy and good cropper, a general favourite.

Siletta—Bears enormous crops; the fruit is large, round, thin-skinned and very juicy.

St. Michael's—Thin skinned, large, one of the best, valuable for market.

Thompson Improved Navel—Splendid fruit, juicy, and thin-skinned, ripens early, excellent for market.

Usher's Favourite—A first-class orange, good cropper and shipper, a late ripener; strongly recommended.

Valencia Late—Fruit large, firm and richly flavoured, one of the latest to ripen.

Washington Navel—An excellent cropper, with fine, large, rich juicy fruit.

White Siletta—Large, smooth skin, pale yellow, good cropper, early.

PRESERVING VARIETIES.

Price 2/6 each, 25/- per dozen.

Cumquat—Heavy bearer, fruit small and round.

Cumquat—Oval, fruit small and good.

Seville—This is considered much the best variety for preserves. The fruit is large, rather flat and solid, and makes excellent marmalade.

GRAPE FRUIT.

Price 2/6 each, 25/- per dozen.

Marche's and Triumph.

MANDARINES.

Sweet Orange Stocks.

Price, 2/6 each, 25/- per dozen, £7/10/- per 100.

Beauty of Glen Retreat—A Queensland variety, of noble size and appearance; most luscious flavour; an enormous cropper; is doing well in this State.

Ellendale Beauty—Pale colour, very fine skin, flavour not equal to Jacob's, but on account of its huge size and favourite colour, will always sell.

Emperor—Very large, regular bearer and extensively grown for market; one of the best.

Fewtrell's Early Shipping—Skin and flavour like an orange, but peels and quarters like a mandarin; very robust, and heavy cropper. Early.

King of Siam—Large, roughish skin, hangs well, quality fair, late.

Large Solid Scarlet—Scarlet appearance, first-class fruit, large size, full and solid; it carries all the points that go to make a profitable market fruit to the grower and seller alike.

Scarlet—Fruit very large in size, skin almost scarlet, flesh very juicy, but not of the best flavour. Very productive.

Oonshiu (Japanese)—A very hardy tree, said to stand frost well; pendulous habit; no seeds; flesh firm, thin skin. Early.

Thorny—The best flavoured of the mandarins; fruit medium sized, with a very high flavour. The tree requires to have the wood thinned.

SKENE'S SEEDLESS MANDARIN (New.)

This is a most valuable addition to Queensland's already rich collection of mandarins, and it stands out as one of the best. It is a vigorous grower, a heavy and sure cropper. The fruit is most attractive in appearance, possessing the desirable characteristic of being practically seedless.

Ripening, as it does, early in the season, at once stamps it as a mandarin of the highest commercial importance. The fruit has been frequently exhibited in the seedling-mandarin section at the Woombe citrus show, and on every occasion the judge has awarded it First Order of Merit in its class.

Yours, etc.

Price 3s. each, 30s. per dozen, £8/10/- per 100.

LEMONS.

2/6 each, 25/- per dozen, £7/10/- per 100.

Common—A very hardy lemon, bearing when the finer varieties do not.

Genoa—Fruit medium size, oval with a very thin rind, and a strong, pleasant, acid flavour; remarkably early bearer.

Improved Lisbon—A splendid variety, which is too well known to need description.

Lisbon Thornless—Fruit larger than Lisbon, a little coarser; tree a spreading, vigorous grower.

Sicily—A lemon of splendid quality, almost destitute of rag, and with an abundance of rich acid juice; of medium size; thin, smooth, very tough.

Sweet Rind—The best of all lemons, being above medium size, and very even. Sells very freely in the market.

Villa Franca—Introduced as a summer bearing lemon; tree a vigorous grower, with a very few thorns; pulps very rich in acid.

LIMES.

2/6 each, 25/- per dozen, £7/10/- per 100.

Tahiti—Fruit very large with an exceedingly thin rind and few seeds; very juicy; does well in Queensland; first class.

MARSHALL'S SEEDLESS PAPER RIND NAVEL.

I beg to bring under your notice that I have been successful in securing the right for the propagating of the above Navel.

The Marshall's Seedless Paper Rind Navel was imported some eight years ago from California, and has been doing well, and has proved itself in the orchard, as some more trees were worked from it and planted out, and have borne out its parent's good and early qualities to be a prolific and constant bearer. The fruit has a lovely appearance, large, smooth skin, very sweet and rich in aroma.

This Navel Orange comes in very early, before the Washington, and is ripe and practically all sold by the end of April, which at once stamps its commercial superiority, by ensuring best returns.

Experts and others who have seen it, speak very highly of it and wherever shown, takes first prize for quality, fineness of texture, thin skin, seedless, and best carrying qualities, and has a great future before it.

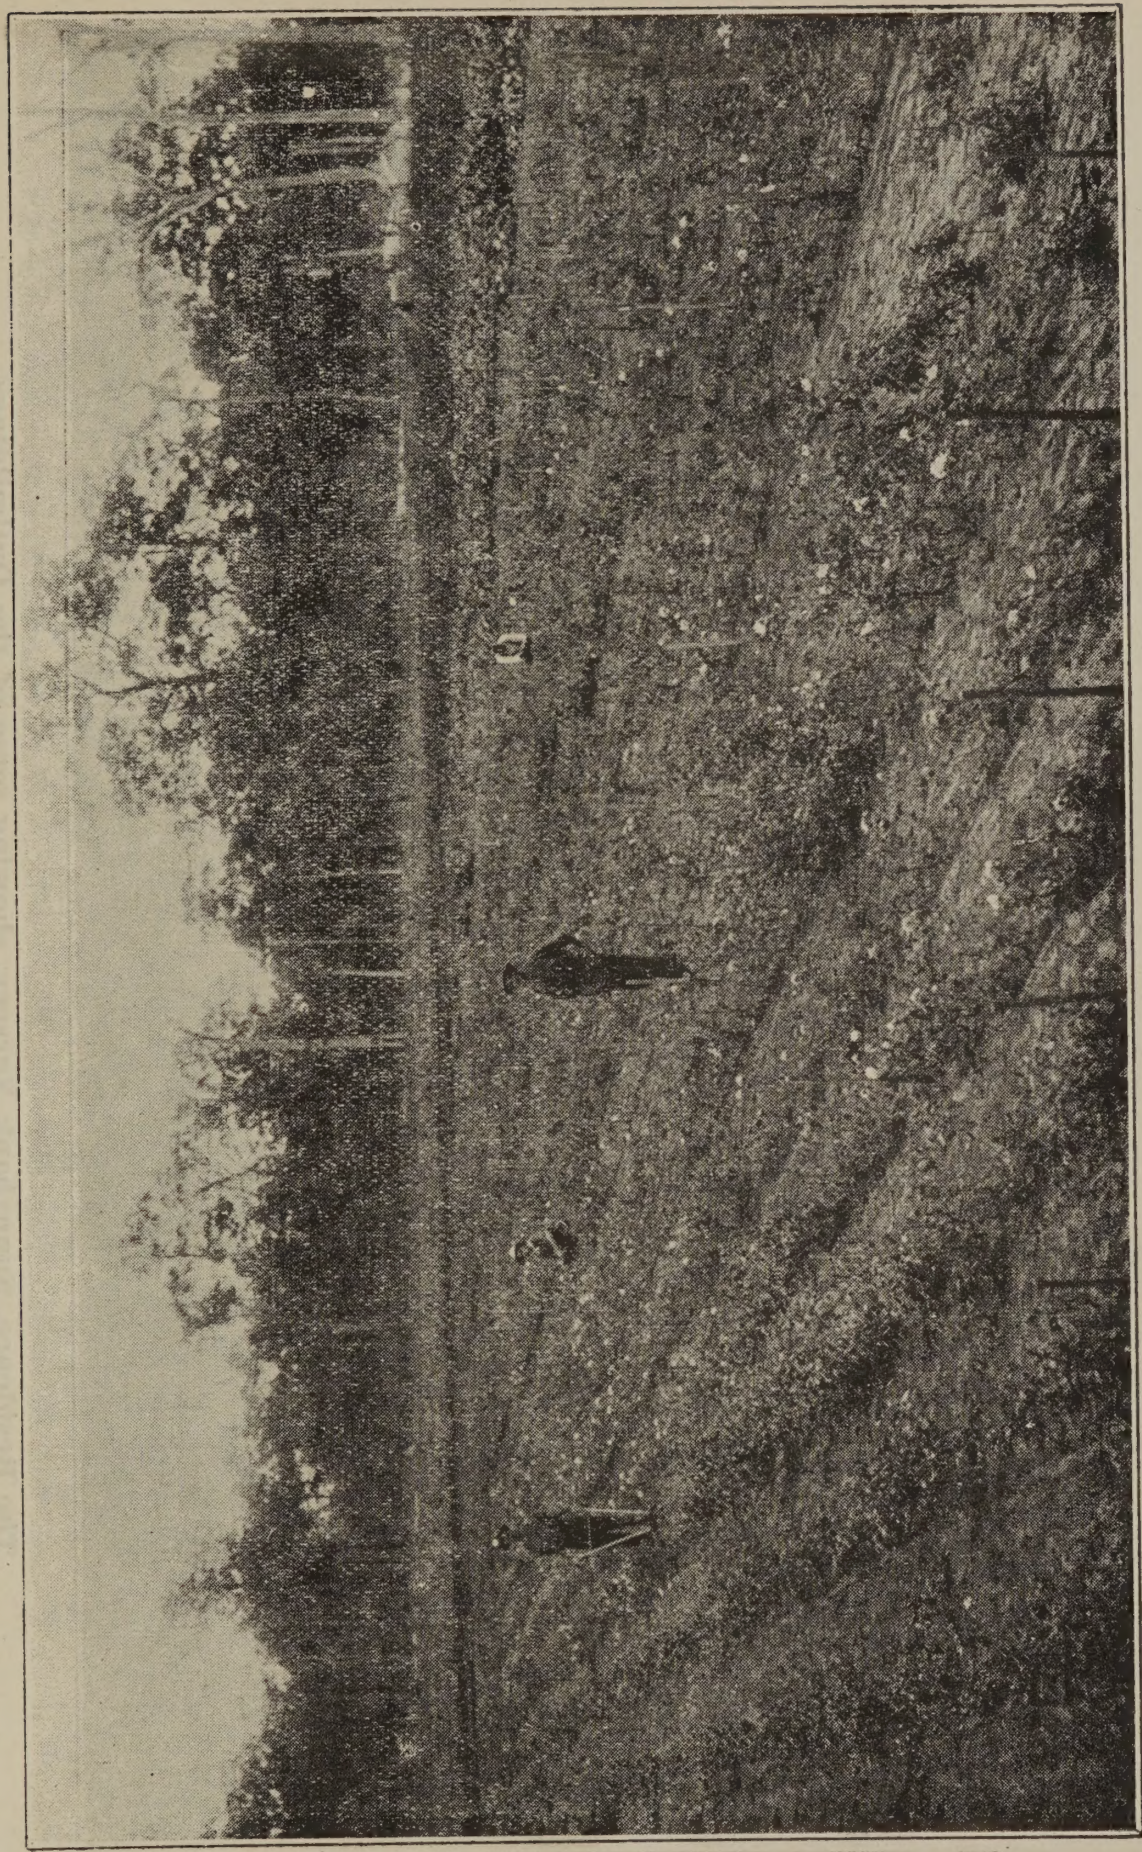

There is nothing so good in the Commonwealth.

Yours sincerely,

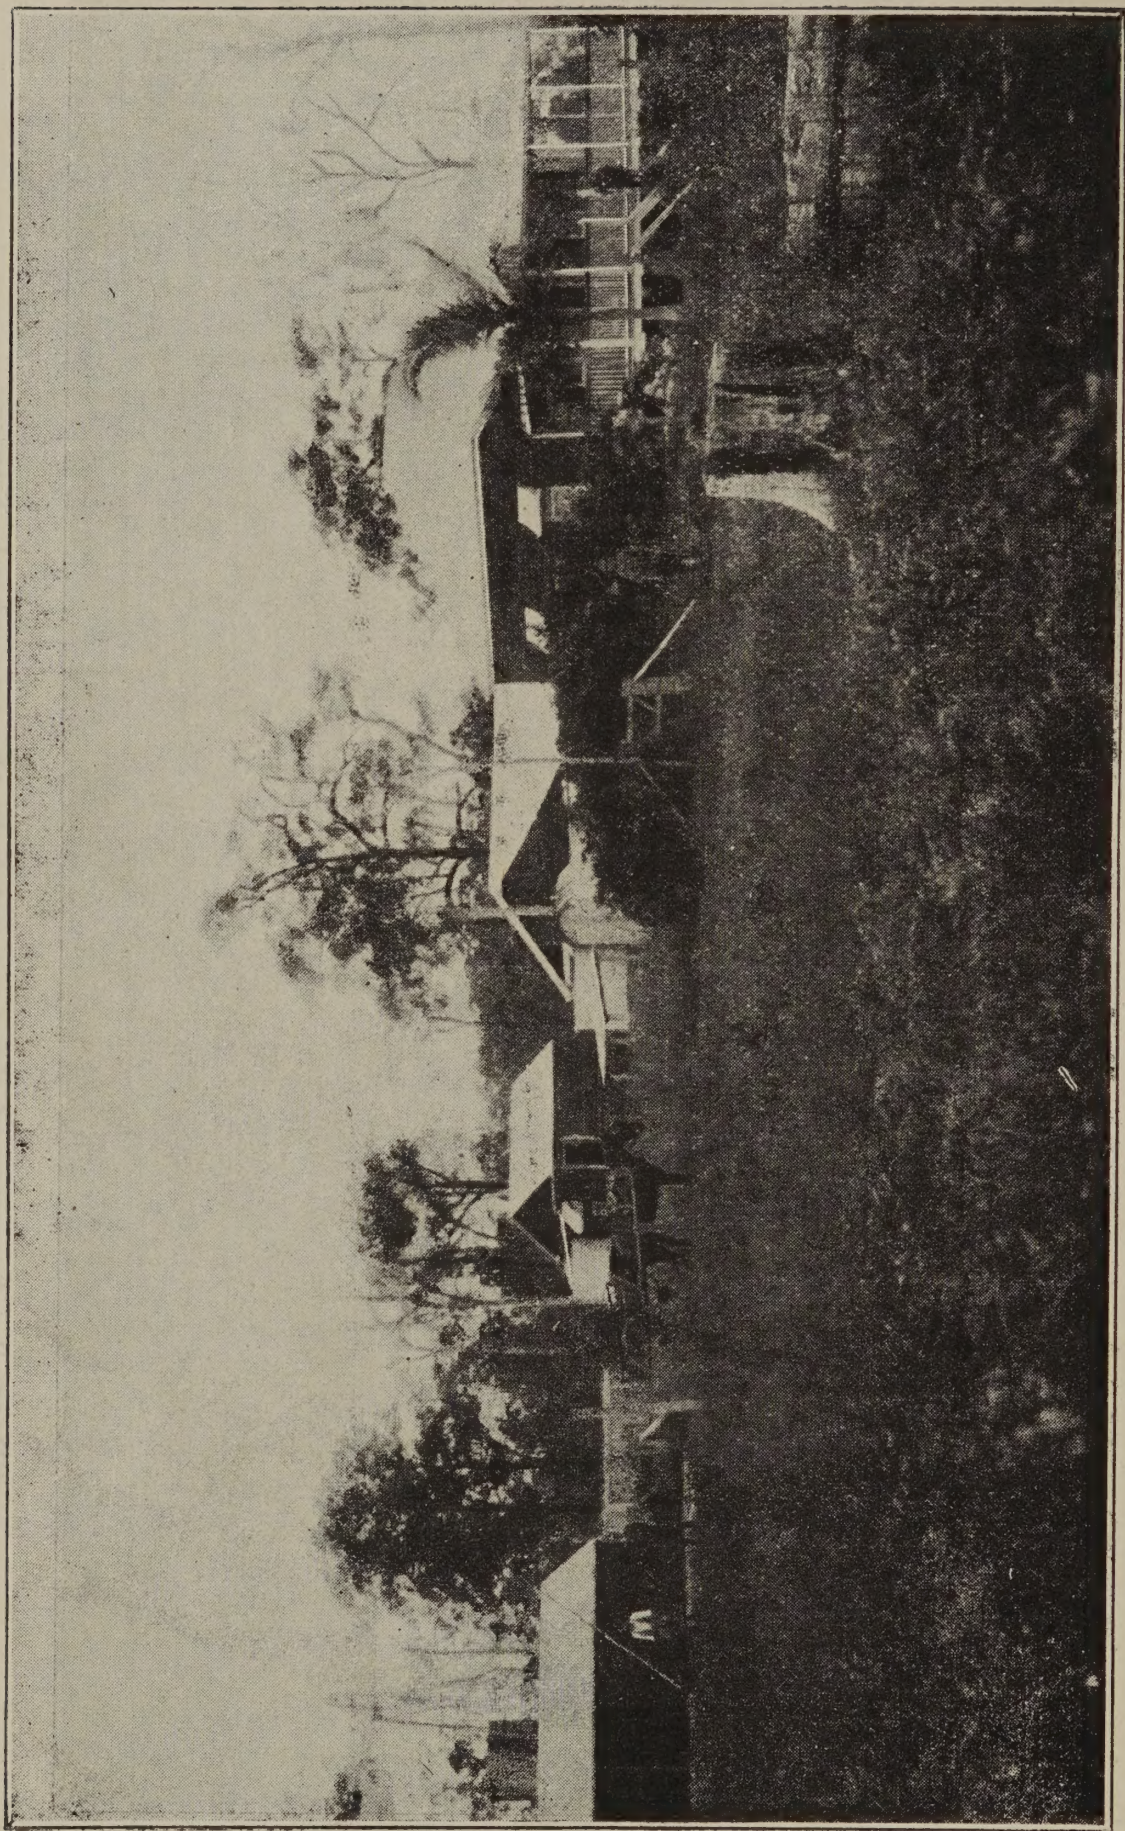

EDGAR SANDALL.

Price, 3s. each, 30s. per dozen, £8/10/- per hundred.

RESULTS are the true test as to efficiency of a commodity—particularly Fertilisers. A

Palmwoods grower writes us recently :—

It's
the
Brand
that
Counts

“I might mention that with the last lot of A.C.F., last year I took the prize for Strawberries at both Nambour and Woombye Shows. I hope you send me the same Fertiliser this year.”

A.C.F. Compounds for every crop are the fertilisers that secure increased yields, and better soil fertility. The above testimonial is only one of the many we receive from time to time.

“Be Wise—Fertilise,” and prove for yourself the efficiency of A. C. F. brand of Fertilisers.

Two Property Preservers

Double the Life of Your Timber Building!

Build so that the work will last a lifetime.
The two most serious causes of the destruction of
Wooden Buildings are "Dry-rot" and White Ant.

SOLIGNUM is the certain preventative
of both. A tried and test-
ed British Product, official-
ly recognised and used by the British and Australian
Governments. "Solignum" penetrates the fibres of
the timber, destroying all vermin and dry rot
fungus, rendering the wood safe against further
attack. "SOLIGNUM" IS BEST WHERE "WHITE

Galvanised Iron Tanks and Roofs that Do Not Leak

Wherever Galvanised Iron is employed there should
follow the immediate use of "FERROBIT." It
gives new iron a tremendous start—it saves old
Iron from rust and destruction.

FERROBIT is the product of long
scientific investigation and
tests to produce a paint
that will adhere to iron,
that will expand and contract with it without
cracking. It prevents moisture from reach-
ing the surface of any metal subject to rust.
Use "FERROBIT" before it's too late, and avoid
the expense of new Roofing and Tank for years to
come.
